CURES AND COMFORT FOR THE BED-RIDDEN.

—BY

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures it heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lesson inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked or in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body nd mind, false delicacy concealing them from the knowdge of the most intimate friends. Persons suffer for ears from these and similar complaints when they might se Holloway's Ointment with instant relief, and effect heir cure at once without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a t orough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Old Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Mosquitoes	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. Journalistic Presumption.

The remarks made at the capital meeting, some ten days ago, appear to have 'riled' our New Westminster cotemporaries considerably. The *Examiner*, although 'at sea' regarding its facts and inferences, is respectable in tone and keeps within the bounds of decency. The *Columbian*, however, is as usual—indecent, personal and untruthful in handling the question. Instead of producing facts to refute the arguments of the speakers at the meeting, and proving that New Westminster has a legitimate title to the permanent location of the capital, he resorts to low personalities and abuse that would disgrace the veriest pothouse politician or fishwife in the land. Argument our contemporary has none; he does not even assume a tone of sarcasm or irony, which would have at least rendered his article readable. He does nothing but abuse! abuse! abuse! his opponents and blackguard the advocates of the removal of the seat of Government to a place where nature designed it should be. But abuse of the speakers is not the whole of our cotemporary's offence against good taste and decency. Forgetful of the fact that he is himself a member of the Council, that will soon be called on to consider the advisability of the removal of the capital; forgetting that only a few weeks have elapsed since he issued his address to 'the electors of New Westminster' and solicited their votes to place him in an *honorable* position, for which his style of writing proves that he is entirely unfitted,—what do we find this model legislator and would be 'leader of public opinion' engaged in doing? Why, nothing more nor less than traducing the characters of the electors and their representatives in the following choice language:

"The nine so-called elective members have been, in some way or other, elected by the people, it is true. But what materially detracts from the virtue of that election is the manner of it. Every resident, of whatever nationality, creed or color, who has been in the Colony for three months prior to the election, is invited to vote. Thus have we seen the foreigner, who was but waiting the arrival of the next steamer to carry him from the Colony forever, step up to the poll and record his vote, or a drove of Kanakas, who required a half-hour's tuition and a second trial in order indistinctly to articulate the name of the candidate in whose interest they had been dragged up, standing upon equal footing with the resident British subject! Is it to men so elected, and some of them not owning a dollar's worth ef property in the country, but being mere 'birds of passage' like many of their constituents, is it to a Council so constituted that can wisely and judiciously be committed the power of deciding such questions as the one under discussion? The proposition is too monstrously absurd and grossly outrageous to be seriously contemplated for a single moment."

If what the *honorable* writer has said concerning the "nine so-called elective members" and their "constituents" had been applied to just *one* of their number—and that *one* himself—we might be disposed to adopt his remarks as faithful to life. But when he boldly traduces every constituency from Victoria to Cariboo, and denounces their representatives as "birds of passage," "not owning a dollar's worth of property in the Colony," one is constrained to ask: What and where are the weighty interests which the *honorable* member for New Westminster represents? Where is his "dollar's worth of property?" and how long since he himself has decided to "roost" permanently at New Westminster instead of flying like a "bird of passage" to Victoria? We put these questions because the air is redolent with rumors to the effect that our cotemporary, conceding an easy victory to the powerful opposition of the *Examiner*, has disposed of his Westminster town lots, and is preparing to establish himself in the despised City of Victoria. We are aware that Dame Rumor—like our cotemporary of the *Columbian*—sometimes relates falsehoods, and perhaps the wisest course to pursue would be to content ourselves with a flat contradiction of his mendacious and mischievous assertions; but since the qualification of other honorable members has been questioned by him, the fairest thing our cotemporary can do is to disavow or acknowledge the truth of the rumor. The speakers at the meeting who have had their motives misconstrued, their remarks misquoted, and their characters assailed, while suffering the attack to pass unnoticed, will, no doubt, feel much as did the sailor when he was run down by a heavy wagon and escaped uninjured. "Why do you grumble, you are not hurt?" asked a bystander. "It is not the hurt I'm grumbling about," replied Jack, "but it's the idea of being run down by a swill-wagon that troubles me!"

Quartz Mining.

We feel that we cannot too frequently and forcibly urge upon our readers the importance of thoroughly prospecting the auriferous quartz leads discovered during the past season at Cariboo and Big Bend. Nothing will so much add to the prosperity of the country and the re-establishment of its good name abroad as a knowledge of the fact that we have one or more well defined quartz leads that are paying dividends. Alluvial diggings are well enough while they last, but this description of mining is never lasting, and, so far as the prosperity of the masses are concerned, only serves to pave the way to the 'testimony of the rocks.' California struggled for years, and never enjoyed any real, permanent prosperity until quartz mining was well understood and in full blast. Ephemeral towns started up in every direction throughout the mines, only to last as long as the diggings and then die out. The discovery of quartz leads in California and the knowledge of the means to work them which has been gained in the last ten years, has placed California among the richest States of the Union. Nevada State, which in 1860 contained only 1500 inhabitants, now boasts of a population of 75,000; and wherever in the Golden State quartz has been discovered, is heard the busy thump of the stampers as they crush the rock and extract the gold. In Grass Valley there are ten dividend paying mines in one camp (some of them very heavy concerns in this respect), and a dozen more that are in a fair way to come under the same head. The bullion shipments are large and gradually increasing. The Eureka is the best mine in Grass Valley. It was purchased—together with its 20-stamp mill—something over a year ago, for the sum of $400,000, and paid for itself in thirteen months. The gross product of the mine for the year ending Sept. 30, 1866, was $536,431 41. After deducting stores, repairs, labor and all other expenses, a net profit remained of $368,042 18. The average yield of the rock per ton was $47 15. The total cost of mining and working it, per ton, was $13 75. The mill was not running full time the greater part of the year. The rock grew much richer during the last four months; the mill ran full time and this is the result: Gross yield for last four months, $255,072 35; nett, $187,751 72. Latterly, the rock paid $65 34 per ton, including the sulphurets. There are about $5 of sulphurets in a ton. These are separated, stored away and sold to the agents of a Swansea establishment for shipment to England. A ton of clean sulphurets is worth from $300 to $400. A contract is about being entered into for the sale of a large quantity at $320 a ton. The mine and mill together employ 175 men, and the expenses of the establishment are about $17,000 a month. The shaft is down about 400 feet; the lowest working level is 320 feet. We are told by old miners that our own Canon Creek quartz will yield $200 to the ton. If this statement be correct, too much energy cannot be shown by the managers in proving it to the world, so that a mill may be erected and put in running order before the summer is over. A fair test of the rock may thus be had; and if there are really inducements for the investment of capital in the Canon Creek or Big Bend lodes, let them be satisfactorily shown, and money to erect machinery and set it going will be speedily forthcoming. But until it has been established beyond doubt that we have these resources, we cannot expect to witness a favorable reaction. What Grass Valley in California has done, British Columbia can and will do, if proper encouragement be given by the Government for the erection of a mill to thoroughly test the lodes.

The Executive Usurpation.

The *Columbian* says that because Mr Young will sit in the Council as Treasurer, Vancouver Island will have eight representatives. This idea is not alone bright—it is novel. Mr Young is a Crown officer, and goes into the Council as a member of the Government, just as Mr Franks would have done had he not been dismissed. A member of the Government is one thing; a representative of the people, whether elected or appointed, is another. The Union Act says: In order that the Island may be represented, the members of the Council shall be twenty-three instead of fifteen. The members of the Government in the new Council, including Mr Young, will be the same in number as before Union. It therefore follows that the mainland has got one more representative than it is legally entitled to, and that the Council is unconstitutionally constituted. Does our cotemporary understand the question now?

LORD ERSKINE.—When Chief Justice of England, presided once at the Chelmsford Assizes, when a case of breach of promise of marriage was tried before him, in which Miss Tickell was plaintiff. The council was a pompous young man, named Stanton, who opened the case with a solemn emphasis, thus: 'Tickell, the plaintiff, my lord—' when Erskine dryly interrupted him with—

'Oh, tickle her yourself, Mr. Stanton; it would be unbecoming in my position!'

S. C. Knott and A. W. Shott fought a duel. The result was that they changed conditions. Knott was shot, and Shott was not. It was better to be Shott than Knott.

EARTHQUAKE IN QUEBEC.—A Quebec paper of November 28th says: Quebec and its vicinity experienced the unmistakeable shock of an earthquake at 10 minutes past 11 o'clock this morning. The shaking, accompanied by a rumbling metallic noise, lasted over a minute, and the movement was from north east to south west. The shock was more defined in the lower town than in any other part of the city, though it was felt on the cape, in the suburbs and in St. Roche. Many persons on the river side, along the St. Charles, ran up in terror from the shore. The inmates of the houses in the streets of St. Roche and St. John's suburbs ran out into the roadways, some of them under the impression that their houses were coming down about their ears, while those on the street had not noticed anything unusual. Bells were set ringing in some upper stories, stoves and windows rattled, furniture danced about, clocks stopped going, and others were set going that had almost forgotten to go at all. Two tottering chimneys in the burnt district were thrown down. And a piano in a house in St. George street, that was not in use at the time, added to the excitement of the moment by "striking up" of its own accord. The noise accompanying the shock was more distinctly heard on the cape and at the river's edge than elsewhere, and sounded like the moving of heavy artillery or lumber cars, passing from the northwest. Business in the courts, on 'change and in many places was suspended for a time, while knots of people assembled here and there through the streets, discussing the recent event. The river police observed "a swell" coming ashore from the river, as though a large steamer had gone by; it lifted one of their boats high up on to the beach. The swell was also noticed in the basin in front of the custom house, by Capt. Fortin. The phenomenon was heralded on Friday by an unusual appearance. On that afternoon a number of persons are said to have enjoyed the rare spectacle of six water spouts, which were for some time observable on the mouth of the St. Charles river, at the junction of the St. Lawrence. The columns of water were of considerable height, and appeared to move in an easterly direction, toward the channel of the St. Lawrence.

MOORE & CO.,
I Agents.

A New and Grand Epoch in Medicine.—Dr. MAGGEL is the founder of a new Medical System The quan itarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrum of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box fail taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. While for Burns Scalds, Chilblains, Cuts, and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 1 Pine street, New York, and all Druggists, at 25 cents per box.

HOLLOWAY'S PILLS.—Confidential Advice—To all persons who suffer from bilious headaches, disordered stomach, biliousness, or flatulency, these Pills are most strongly recommended as the safest, best and quickest mode of obtaining ease, without weakening or irritating the nervous system. Holloway's Pills are especially useful in clearing away any excess of bile, which usually produces fever, unless remedial measures be adopted without delays. In asthma, bronchitis, any congestion of the lungs, they may be relied upon for removing all danger. And, by purifying and regulating the circulation, they effectually prevent relapses. By rousing the liver to a fair secretion of bile, and quickly carrying it from the system, these Pills ward off low spirits, listlessness, and those distressing feelings often called "nervous."

GREAT MANY SIDE HITS ARE being made at the Plantation Bitters, by a core of two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be long imposed upon. The Plantation Bitters ar increasing in use and popularity every day, and they "that's what's the matter." They are in same sized bottle and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate; They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath, and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache;
They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The recipe and full Circular are around each bottle. Clergymen, Merchants and persons whose sedentary habits induce weakness lassitude, palpitation of the heart, lack of appetite distress after eating, liver complaint, constipation, &c, will find immediate and permanent relief in these Bitters but above all, they are recommended to weak and delicate female and mothers.

The original quality and high character of these goo will be sustained under every and all circumstances. They have already obtained a sale in every town, village, pari and hamlet sha among civilized nations. Base imitators try to come a near our name and style as they n, and beca se a good article can ver be sold as low as a poor one, they find some support from parties who do not care what they sell. Over a Million Dollars Saved.

GENTLEMEN:—"I had a negro man worth $1 200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment It soon effected a permanent cure."

J. L. DOWNING.
Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Linement as a valuable and indispensible article for Sprains, Scars, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT
Foreman for American, Wells Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

ED. SEELY
Gloucester, Mass. August 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped in steel-plated engravings, bearing the signature of W. Westbrook, Chemist, and the private U.S. stamp of Demas Barnes & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon permaturely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Lyon's Flea Powder

Lyon's Magnetic Insect Powder is instant death to Fleas, Ticks, Roaches, and everything of the insect species. It is one of the few articles that can be relied upon, and for a mere two bits we can save the bites and bills of these little pests. None is genuine unless signed by E. Lyon, and bearing the private stamp of Demas Barnes & Co., New York.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warm stimulant is required Its careful preparation and entire purity make it cheap and reliable article for culinary purposes. So everywhere, at 50 cts. per bottle. Ask for "Lyon's Pure Extract. Take no other.

Caution.—See that the private U. S. Stamp of Demas Barnes & Co., is over the cork of each bottle; none other is genuine

BIRTH.

At Nanaimo, V. I., on the 19th inst., at the residence of her grandfather, W. H. Franklyn, Esq., J. P., Laura May Julius, the infant and only daughter of George C. and Mary Deverill, aged 9 months and 14 days.

HAWAIIAN ITEMS.—The peculiar epidemic known as the Bo-hoo fever, which periodically visits the Sandwich Islands, and is supposed to be conveyed in the atmosphere by the southerly trade winds, was gradually disappearing and the public health was much improved at latest dates. A large number of the natives had died and some of the white population had also fallen victims. While the fever was at its height business was almost entirely at a stand still, and stores were closed, all hands being laid up at the same time. It was not an uncommon sight to see several interments taking place at the same time. Among those who have been fatally seized was Capt. Benjamin F. Snow, a well known pioneer resident. . .. The Hudson Bay Co.'s schooner Mink has been purchased as a coasting packet for $6,500. She is now named the Kohala. Capt. Ella and his mate will return to Victoria in the bark Metropolis, Capt. Howard, which was to follow the Premier in a few days..... Business generally had been very dull but was reviving. The whaling fleet arrived during the fall numbered seventy six ships. .....The Chinese coolie who murdered Capt. Dudoit was hung on the 15th ult..... The brig Pfiel, which once visited this port, had three of her crew murdered at Butaritari Island in the Gilbert Archipelago..... Capt. Homan, of the whaler Cornelius Howland, was sued by a native seaman in the Admiralty Court for damages sustained through ill-treatment, by which his hands and feet became frozen and he maimed for life. Judge Davis awarded the seaman $1250. Capt. Homan at first defied the Court and refused to pay, but on being incarcerated for contempt paid the money, protesting through the papers against its legality.

FELL AMONG THIEVES—Louis Delanger, an honest appearing Teuton, visited Johnson's Lager Beer Saloon on Friday night last, and was invited to take a hand in a game of cards 'for the drinks,' with five or six fellows who were sitting at a table. After imbibing 'one glass' of the nectar, Louis' head began to swie, and, losing his self-possession, he pulled out a handful of gold coin and notes and exhibited them to the greedy eyes of his quondam friends. Shortly afterwards, in a glorious state of 'how-come-you-so?' our Teuton left the cellar and wended his uncertain way homeward. His route lay along Cormorant street, and as he staggered past one of the filthy-looking dens that abound in that delightful locality, he was suddenly seized from behind, an arm was pressed against his windpipe, and, deprived of consciousness, he rolled on the ground, the helpless prey of five or six scoundrels, who rifled his pockets of his treasure—amounting to $370—and left him to recover as best he could. The dash of rain in his face awakened the poor fellow after a short time, and he made his way to the barracks, where he told his story. Messrs Welch and Woolhacott immediately started on the scent, and within an hour had two of the hardest-looking fellows in the town in custody. A partial examination took place on Saturday, and the case lies over until to-morrow. The prisoners—who are named Kelly and Morgan—are said to be bad men. This garroting robbery is the second that has taken place within a week; the sufferer in the first instance, not caring to prosecute, left on the Active.

THE ANNIVERSARY DINNER OF THE FRENCH BENEVOLENT SOCIETY took place last evening at the Colonial, and was one of the most sociable and agreable gatherings of the kind that has ever taken place in this city. The chair was taken at six o'clock by the President of the Society, M. Timmerman, and the vice-chairs by M. Cahn and Secretary Merle, ex-Mayor Franklin, Messrs Holden and Kelly of the Fire Department, Dr Carrall and members of the Press were present; the company numbering in all about 50 persons. After an excellent dinner provided by Mons Driard, the following toasts were proposed: La Societe Francais de Bienfaisance by the President. The Committee and President by M. Grancini. The attending physician (Dr Powell) by the President. The doctor in responding paid a high compliment to the benefits conferred by the Society and the advantages it offered to the sick and needy. The Press by the President, acknowledged by Messrs Harries, Dellis and Suter. The Fire Department proposed by M. Passerard acknowledged by Messrs Kelly and Holden. Mr Franklin ex Mayor by the President, Italy and the Italians by Mr Holden, ably acknowledged by M. Grancini. The healths of the founder of the Society, M. Driard, the Treasurer and Secretary M. Promis and M Merle, and of Dr Carrall were severally proposed and met with suitable responses, when members present were invited to favor the company with songs, and a graceful termination was given to the evening's entertainment by the company rising to their feet, and singing with patriotic fervour "God Save the Queen."

FATAL ACCIDENT.—A man named John Payne, engaged in repairing the telegraph line beyond Sehome, W. T., was drowned, on Saturday, in endeavoring to swim a slough, near Lummie Island. The attention of the people residing three miles from the scene of the accident was attracted to the spot by the actions and apparent grief of the dog of the unfortunate man.

BUTE INLET RAILWAY—Mr Waddington and Mr Pearkes returned from New Westminster on Saturday. They had a most agreeable interview with His Excellency, and we learn that there is every prospect of the request for an extension of the charter from twenty-one to twenty-five years, and some additional land along the line of road being granted. One thing is certain,—whether the local Government acts in a liberal spirit or not towards the Company, the English capitalists who have subscribed to the stock are in earnest, and will in a few months commence the first link in the overland railway, with the initial point at the head of Bute Inlet. What a glorious triumph the completion of this road will be to the old man who has for years borne up patiently beneath the load of dirt that an unprincipled, narrow-souled journalist at the Capital has showered upon him, and has at last brought his great philanthropic scheme to a successful issue. Men like Waddington live in history as benefactors of their race, long after their calumniators are forgotten.

THE GREAT EASTERN.—It is understood that early in the new year the great Eastern will be placed upon the gridiron at Liverpool and receive a thorough overhaul. She will afterwards be fitted with new screw boilers, and internally equipped as she originally was for the conveyance of first-class passengers. The directors have gone to this expense, having chartered her for 12 months (with the option of the charter being renewed) to a French company, who intend to employ her during the greater part of next year in bringing passengers from New York to Brest for the Exhibition. She will make her first trip to New York in March.—*Despatch.*

PUT BACK.—The steamer Fideliter, which sailed from this port for Portland, met with very rough weather, the sea running so high that the fires in the engine room were twice extinguished, and she was forced to resort to sails to reach Neah Bay, where she remained until Saturday. Captain Grey, U. S. A., was suddenly taken ill, and finding medical aid necessary, requested Captain Erskine to return to Victoria, which he did. Captain Erskine states that a gale was blowing from south-east to south-west with a high sea. The schooner Crosby was anchored in Neah Bay when the Fideliter left.

CONCERT.—Mr Geo. F. Wilson has announced a programme of attractions for his concert on Wednesday evening that cannot fail to ensure a musical treat to all who attend. In addition to lady and gentlemen amateurs, Mr Wilson has succeeded in securing the services of Madame Josephine D'Ormy, one of the most accomplished vocalists that has yet visited the coast, who will appear for the first time in this city. The Marsh and Pixley families will also lend their assistance on the occasion. The orchestra will be composed of the best instrumental talent in the city. For further particulars see programmes.

THEATRICAL.—In a late number of the San Francisco *Dramatic Chronicle* we find the following mention of *artistes* who are well known here: Mrs Leighton is playing at New Orleans; Charles Thorne is engaged to appear at Lowell, Mass.; Alonzo Phelps was the star with Manager Lanagrishe, at Denver City, Colorado Territory; Fanny Morgan Phelps was to open at the Atheneum, Detroit, for two weeks; Sallie Hinckley will shortly commence an engagement at the New York Theatre, in a spectacular piece brought by her from Paris.

THEATRE TO-NIGHT.—The talented Pixley Sisters, assisted by Miss Jenny Arnot, the Marshes and others, will give an entertainment this evening in the theatre, commencing with the comic sketch of the 'Stage-struck Yankee,' in which Miss Annie Pixley will personate Fanny Magnet, an actress, with song and dance, and Miss Arnot a Yankee girl. To be followed by an interlude of singing and dancing, and ending with the humorous farce of 'A Ghost in Spite of Himself.' Let all who wish to pass an agreeable evening patronise Marsh's entertainment to-night.

FROM THE SANDWICH ISLANDS—The schr. Premier, Captain Loudon, arrived in port yesterday morning from Honolulu, after a fine run of twenty-two days. She left on the 27th December, experienced strong southerly winds first four days, and heavy weather with variable winds all the rest of the passage; vessel laboring and straining much, and shipping a great deal of water on deck, filling her cabin and keeping the men constantly at the pumps. We are indebted to Captain Loudon for files of Hawaiian papers.

SUMASS PRODUCE—Messrs Chadley Bros., farmers on the Sumass prairies, have made 3000 pounds of most excellent butter this season. They had twenty acres of vegetables and fifteen tons of buckwheat. Altogether in the Sumass and Chilliwack sections there have been over two hundred acres on which vegetables have been reared. They have also reared two hundred tobacco plants successfully. Mr T. York has made four thousand pounds of butter, and had ten acres cultivated with vegetables.—*Examiner.*

RETURN OF THE ENTERPRISE.—The steamer Enterprise returned on Saturday from New Westminster with forty passengers and a small amount of treasure. Among the passengers we noticed Messrs Pearkes, Waddington, Pearse, Moorhead, Nicol, Norris, Lamb, Pitfield, Conway and Beak. The Enterprise reports but little wind when crossing the gulf, which is not a little extraordinary when we remember the hard gale that blew here all day.

FARE AND MAILS BY THE CHINA LINE.—The Pacific Mail Steamship Company have fixed the rates of fare to China by the new steam line, of which the magnificent Colorado was the initial steamer, starting Jan. 1st, as follows: To Yokohama, Japan, first cabin, $250; second cabin, $170; steerage, 85. To Hongkong, China, first cabin, $300; second cabin, $200; Chinemen $55 50.—*San Francisco Paper.*

LETTER BAGS LOST.—The Cariboo mail and express which left Westminster on Friday for the upper country in a canoe, are reported to have met with an accident at Langley, where, it is said, the frail bark was upset by floating ice, and two of the bags lost. Another canoe, with mail matter, started from Westminster on Saturday.

SKEDADDLERS RETURNED.—On board the Fideliter, when she left this port, were three debtors, who had taken French leave of their creditors. The unexpected return of the steamer to this port delivered the three delinquents into the hands of the Philistines. One "gemman" shipped all his goods aboard the steamer, purposing to go into business at Portland. The articles will, of course, be seized and sold, and the proceeds paid to the creditors.

VICTORIA VOLUNTEER RIFLE CORPS.—Lients. Pearse, Moorhead, and Corpl. Norris, who were deputed to wait upon His Excellency the Governor, in order to bring before the Executive the present position of the corps, returned per steamer Enterprise on Saturday evening, and report that they were courteously received, and promised that the affairs of the corps shall receive favorable consideration.

DISPATCHED—We are informed that Capt. Holmes, of the Seymour Artillery, has received by last mail a letter from the Imperial Government informing him that two 24-pounders, accoutrements and arms for 100 men, besides a large amount of ammunition, have been despatched from England for the use of the New Westminster Artillery Corps. *Examiner.*

NO COMMUNICATION by steamer is now had with the upper river. Navigation is carried on by canoes, and snow and ice render traveling even by this primitive mode of conveyance uncertain and dangerous.

VICTORIA RIFLE CORPS.—No. 1 Company, Monday, at 8 p. m.; No. 2 Company. Wednesday, at 8 p. m.; Sword Drill, Thursday, at 8 p. m.—By order, J. GORDON VINTER, Lieut. and Adj.

MECHANICS' INSTITUTE.—The Elocution Class will meet this evening, at eight o'clock, when readings and recitations will be given by members.

☞ Two Caribooites, who started from their claims last week, have returned. The Fraser being full of ice, prevented them prosecuting their journey above the Capital.

OPENING OF THE COUNCIL.—The whole Volunteer force will turn out as a guard of honor to His Excellency on the 24th.—*Examiner.*

FELL.—The boat shed on the Pioneer station fell on Sunday night with a fearful crash, owing to the weight of snow on the roof.—*Examiner.*

EXECUTIVE.—There was a meeting of the Executive Council at Government House on Friday afternoon.—*Examiner.*

THE LATEST WRINKLE at the Capital is a skating rink, while at Victoria, ice to the thickness of half-a-dollar has not yet formed.

From the Interior.

From Mr Beak who left William Creek on the 29th ult, we learn that the Wake up Jake claim had been drained two or three days before he left the creek. Times were lively, provisions moderate. Flour 26 cts, beef 25 to 30 cts; pork 62½; butter $1 50. Other things much about the same. The snow was about one foot to 18 inches deep, but traffic over the whole of Cariboo was uninterrupted.

The sleighing on the road was good to the Junction and thence to Lytton was passable, from Lytton down very little snow. Mr Beak states that Mr Adams is pushing forward the erection of his grist mill at Soda Creek.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipaled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.
